As individual as your home

Spring 2010

Welcome to our Spring newsletter

The Workshop

A Spring clean is underway making room for some new machinery to help tackle the more intricate work such as coving & dado rails & carvings.

On Site

Demolition before construction has been the pattern this year with kitchen to garage doorways built, a kitchen rebuild & doors to be adjusted to newly made openings.

Other News

Ozzy was short listed for a Channel 4 project 'We built the Titanic' in Belfast, it would have been a very interesting experience but they decided that they were going to concentrate on the engineering side of things in the end rather than any timber interiors.

Questions & Answers

Q –KITCHENS *"We really could do with a kitchen update but I can't bear the thought of having it all ripped out & can't afford it what is the answer?"*

A – A solid timber refit –we can replace your existing kitchen fronts & worktop to look like new with much less disruption & much less cost !

Q –FLOORS *"I would love to take up these old carpets but the flooring underneath isn't something to look at what can be done?"*

A – Floors can be stripped, sanded & sealed or new flooring laid on top of the existing one.

Q -DOORS *The off the peg doors are just not what I want or don't quite fit?*

A - We can tailor make doors both interior & exterior to your design or adjust off the peg doors to fit your doorway.
